This is to certify that

Leask Marine Ltd
Kirkwall, United Kingdom

is granted acceptance for
In-water survey of ships and mobile offshore units by diver , in accordance with Class Programme DNVGL-CP-0484.

This service supplier certificate will be accepted for use with all rule sets published by DNV GL.
See the following page(s) for details regarding application.

This Certificate is valid from **2020-11-20** to (inclusive) **2023-11-19**.

This Certificate is issued on **2020-12-04**.

for **DNV GL**

This document has been digitally signed and will therefore not have handwritten signatures

Moraes, José Guilherme
Surveyor

This Certificate may be withdrawn if:

1. The service provided has been improperly carried out or the results improperly reported.
2. The surveyor has found any deficiencies in the accepted operating systems of the service supplier.
3. The firm has failed to inform of any major changes having effect on the quality of the service rendered.
4. The conditions listed in the certificate are changed and/or are not fulfilled.

LEGAL DISCLAIMER: Unless otherwise stated in the applicable contract with the holder of this document, or following from mandatory law, the liability of DNV GL AS, its parent companies and subsidiaries as well as their officers, directors and employees ("DNV GL") arising from or in connection with the services rendered for the purpose of the issuance of this document or reliance thereon, whether in contract or in tort (including negligence), shall be limited to direct losses and under any circumstance be limited to 300,000 USD.

Application:

Company Certified as Approved Service Supplier to carry out inspections as per DNVGL-CP-0484 Programme A03 In-Water Survey on Ships and Mobile Offshore Units by **Divers only**. Therefore, this Certificate does not cover ROV Operations.

Remarks:

The enclosed Certificate is based upon the following conditions:

1. The Requirements stated in Class Programme DNVGL-CP-0484 continue to be met. The Approval is conditional upon the firm maintaining the audited scheme and notifying DNV GL of any significant changes in personnel, equipment or procedures.

2. Company Supervisors and Authorized Personnel to carry out In-Water Surveys on Classification projects pertinent to this Approval is controlled by the Certificate Holder Training and Qualification Procedure.

3. Evidence of valid qualifications and trainings, as required for service technicians for the relevant service, must be presented to attending surveyors at the time of conducting service.

4. Valid copy of Approval of Service Supplier certificate to be available before each service and to be presented to attending surveyor.

5. The survey with Divers shall provide the same results as for any ordinary survey performed in dry-dock. The survey shall be conducted under DNV GL supervision. The Attending Surveyor may request additional inspection depending on the outcome of the survey.

6. For bottom surveys afloat, requirements in rules for ships, Pt.7 Ch.1 Sec.5 1.5 shall be observed.

7. For Offshore Unit's bottom surveys afloat, requirements in Rules for classification: Offshore units — DNVGL-RU-OU-0300, Sec. 6, Sec. 1.3. For more details on how to perform bottom survey afloat, see DNVGL-OTG-08 Guidance on Bottom Survey. Company is to request to set up a kick-off meeting with DNV GL Attending Offshore Surveyor 2-weeks before diving) to address:

- a. Diving plan review,
- b. Records of divers and Supervisors in the project,
- c. Diving and equipment limitations,
- d. Flag Authority diving plan approval, when applicable.

8. Thickness Measurements taken underwater are considered an enhanced technique for assessment of corroded areas. Measurements taken by conventional ways are to be required by Attending DNV GL Surveyor as much as necessary.
