Leask Marine CORE Objectives

Overall Objective

“The core objective of Leask Marine Limited is to at all times maintain a safe, secure and environmentally friendly workplace with the aim of Zero accidents or incidents.”

Our 2023 Objectives are:

1. To continue to run a profitable operation ensuring that revenue stays ahead of increasing costs for doing business, while maintaining a healthy cash flow.
2. To ensure customer retention by ensuring that we are a customer centric company that is easy to do business with. To this end we have a **Zero** target for customer complaints.
3. To maintain BS ISO 45001:2018 Occupational Health & Safety Management Systems Certification for best practices in occupational safety.
4. To maintain BS EN ISO 9001:2015 Quality Management certification for best practices in continual improvement of the integrated quality Management system.
5. To maintain BS EN ISO 14001:2015 Environmental Management certification for best practices in continual improvement of its environmental performances.
6. To maintain BS EN ISO 27001:2017 Information Technology, Security techniques, Information security management systems Requirements certification for best practices in continual improvement of its performances.
7. To improve in all Key Performance targets for Health & Safety processes including accident reporting, audits, training, safety meetings and emergency drills.
8. To continually improve Key Performance targets for Quality processes and ensure that all Health & Safety, Environmental, Information Security, and Quality Context, Risks, Opportunities and Objectives are monitored, audited, sufficient training is provided, and defined criteria is set
9. To maintain Zero Target Key Performance targets for Environmental processes including reporting incidents, non-conformance reporting and recycling.
10. To Maintain Certification from all major certifying authorities.
